Fun Fact!

In 2021, Linux Mint celebrated its 15th anniversary

Ubuntu-Based Distro

It's based entirely on Ubuntu which is a famous linux distribution.

Ubuntu itself is based on Debian which is one of the oldest linux distributions

Mint has become the very best example of what a Linux desktop should be: fast, easy, pleasing to the eye, useful and productive. Others, still, see Mint as the ideal desktop for Windows refugees, or those who are trying out Linux for the first time, and want an operating system that essentially works 'out of the box'.
